

SWIT

Precise Positioning Lighting Pantograph

GA-PT20P	0.5m-2m	23kg load
GA-PT30P	0.6m-3m	23kg load
GA-PT50P	0.8m-5m	23kg load

Precise Positioning Pantograph

The Pantograph allows precise positioning at any desired height, and you can easily adjust the pulling strength by the knobs on both sides of the top box.

Counter Balance Adjustment

The pantograph is manually adjusted the counter balance, for different weight of the light fixtures. Max load 23kg.

Ceiling Hook Connect

The pantograph can be connected with ceiling hook easily by screw bolts. SWIT provides the hook GA-DG75 perfectly matches with the pantograph.

Studio Light Connect

The bottom end of the pantograph provides a screw bolt and a nut to fix the yoke of studio lights.
* Remove the baby pin socket on the yoke of SWIT lights, and then install pantograph.
